AT UNIVERSITY OF SOPRON
WHAT IS LALI ARTAPP?

Innovative mobile application, using new software developing methods

Supporting language learning
INSTEAD OF THE OLD WAY…
In agile software development, a set of principles for software development is defined which helps the collaboration either among the team members or between the developer team and the contracting party.
OUR WAY TO THE LALI ARTAPP

**Specification**
- Started @Kick-off
- Finalized in M8

**Backend**
- Idea was born on a Skype Telco
